

News Release

Pathfinder Irrigation District Announces 2nd increase in the water allocation.

Mitchell, Nebraska, August 5, 2021: The Pathfinder Irrigation District announces an increase in its water allocation. Due to the delivery system operating at a higher level of efficiency than expected, the district is able to increase the allocation from 1.6 acre-feet/acre to 1.7 acre-feet/acre.

The district will begin to shut down the irrigation system on September 6th. Water deliveries will terminate as water levels drop. Irrigators are encouraged to plan their irrigation accordingly.

Information concerning water operations and allocation updates can be found on the district's website at www.pathfinderirrigation.com . The district will also provide text messaging updates to users. If you are not currently receiving the district's text messages, please call the office and provide your name and cell phone number and we will add you to the list. Irrigators are encouraged to work with the District to manage and conserve as much water as possible.
