Pathfinder Irrigation District

News Release

Pathfinder Irrigation District Announces Shutdown for Early Season Irrigation Deliveries.

Mitchell, Nebraska, May 24, 2023: The Pathfinder Irrigation District will be shutting down the laterals and the deliveries off the Interstate Canal on Wednesday, May 31, 2023. Water will remain in the Interstate Canal for a few days until the Inland Lakes are up to the desired summer capacity. The flows in the High Line, Low Line, and Supply Canals will be shut down on the morning of May 31; deliveries from these canals will terminate as the water levels in the canals drop. Water users should schedule their final irrigation accordingly and contact their ditchrider as the shutdown proceeds to know when deliveries to their farm will terminate.

The District will restart the system as the weather and irrigation demand dictates.
